Professional Summary

2026 Computer Science Engineering graduate with a foundation in Java programming, Object-Oriented Programming (OOP), Data Structures and Algorithms (DSA), and problem-solving. Knowledge of backend development with Spring Boot, Spring Data JPA, Hibernate and REST APIs, along with SQL and MySQL. Interested in building reliable software solutions and contributing to software engineering teams.

Technical Skills

Programming Languages: Java, SQL, JavaScript

Core Computer Science Fundamentals: Object-Oriented Programming (OOP), Data Structures and Algorithms (DSA), Database Management Systems (DBMS)

Backend Development: Java, Spring Boot, REST APIs, Spring Data JPA, Hibernate

Databases: MySQL

Frontend Development: HTML5, CSS3, JavaScript

Tools & Technologies: Git, GitHub, Postman, IntelliJ IDEA, AWS

Development Methodologies: Agile, Scrum, Software Development Life Cycle (SDLC)

Projects

Employee Management System
Java, HTML5, CSS3, JavaScript

- Developed employee-management functionality using Java and created user-facing pages with HTML5, CSS3 and JavaScript.
- Added client-side interactions to support employee information workflows.

Fashion Store – Fashion E-commerce Web Application *In Progress*
Java, Spring Boot, Spring Data JPA, Hibernate, MySQL, HTML5, CSS3, JavaScript

- Developing a user-facing fashion e-commerce application with product-browsing and product-listing pages.
- Added product records to MySQL and organized product and order data operations.
- Building reusable page components to maintain a consistent shopping experience.

CareConnect – Patient Care Assistance Platform *Concept*
Proposed Stack: Java, Spring Boot, Spring Data JPA, Hibernate, REST APIs, MySQL, HTML5, CSS3, JavaScript

- Conceptualized a platform connecting families with patient-care assistants and coordinating care requests.
- Proposed a Java backend with REST APIs and database management for the planned application.

Experience

Tap Academy *6 Months*
Java Full Stack Intern

- Built responsive web pages using HTML5, CSS3 and JavaScript.
- Practiced Java programming, OOP concepts, DSA and problem-solving through programming exercises.
- Wrote SQL queries to retrieve, filter, sort and manipulate relational data using MySQL.
- Used Git and GitHub for version control and project collaboration.
- Gained practical exposure to backend development fundamentals and software development practices.

Achievements

- Secured **4th rank** in a technical hackathon through team collaboration and software development.
- Participated in programming challenges involving Java, DSA and problem-solving.
- Participated in Kannada Kalothsava.

Education

PES College of Engineering, Mandya, Karnataka *2022 – 2026*
B.E. in Computer Science and Engineering **CGPA: 6.9/10**

Sri Sathya Sailoka Seva PU College, Karnataka *2018 – 2020*
Pre-University Course (PCMB) **Percentage: 87%**
